

Surface

Property

Surface is a multi-disciplinary Environment and Design Consultancy specialising in the built environment.

Project: York Minster, York
 Services: Ecology
 Client: York Minster

Introduction to Surface Property

Surface is a multi-disciplinary Environment and Design Consultancy specialising in the built environment. We cover all environmental services relating to the planning process and work on all scales of projects from individual properties to major development schemes across the UK and internationally.

The team at Surface have significant expertise in the property sector working for public and private sector clients in all areas of the property market.

Surface combines the considerable skills and expertise of over 60 staff and adheres to a set of core values:

Clients

To maintain a high quality, client focused approach.

Quality

To promote quality in all aspects of our work and to facilitate Continued Professional Development of all staff.

People

To provide a positive working environment, fostering a team ethic and valuing individuals.

Environment

To produce projects that enhance the natural and built environment in which we live, and work.

Innovation

To be recognised for our industry leading technical expertise and approach.

Doing the right thing

To improve the lives of others.

Surface works closely with the existing fabric of our sites. We believe that to deliver a truly exceptional project it is important to fully understand the context of the site and its surroundings. We quickly develop an intrinsic knowledge of all the sites we work on, enabling us to understand their history, context, constraints and opportunities.
